Education

Vellore Institute of Technology, Tamil Nadu

2024 – 2026

Master in Computer Applications

CGPA: 9.02

Amity University, Uttar Pradesh

2021 – 2024

Bachelors in Computer Applications

CGPA: 8.85

Experience

EduBloom: Recruitment and Training

May 2026 – July 2026

Founder's Office – Business Growth and Tech Operations Intern

- Supported business growth initiatives and technology-driven operations to improve workflow efficiency and execution.
- Designed and implemented a CRM solution for the company, writing backend logic and automation scripts to streamline internal processes and reduce manual effort.

DevLogix

Nov 2025 – April 2026

Software Associate

- Contributed to the full development lifecycle – coding, debugging, and code reviews – across multiple software modules.
- Collaborated with cross-functional teams using Git-based version control to enhance system performance, resolve bugs and deliver production-ready features.

Freelance Developer

Jul 2025 – Nov 2025

MERN Stack Developer

- Completed freelance projects focused on full-stack web development, from API design to deployment.
- Delivered responsive, optimized, and production-ready web applications for clients, including systems for managing users.

Projects

ShopSphere

May 2026 – Present

React.js, MongoDB, MUI, Tailwind CSS, TypeScript, Node.js

- Developing a user-centric e-commerce platform with inventory management, product workflows, and delivery integration to improve store operations by 50%.
- Building SEO-optimized, responsive interfaces using React.js, MUI, and Tailwind CSS, improving overall responsiveness.
- Implementing scalable backend services and database-driven features for efficient product management and order workflows.

Hospital Information System (HIS)

Jan 2026 – Apr 2026

React, Node.js, Python (Fast API), Postgres-SQL

- Collaborated in a team of developers to design and develop a full-stack HIS for managing patient records, appointments and administrative workflows.
- Designed RESTful APIs and implemented backend logic for handling data, improving data retrieval efficiency by 35%.
- Debugged integration and API-level issues, enhancing system reliability and reducing response time by 25%.

TransactSafe: Blockchain-Powered Escrow System for Freelance Payments

Jul 2025 – Nov 2025

Rust, Solana, Anchor, Web3.js, React, Node.js

- Developed a blockchain-based escrow platform for secure freelance payments and dispute handling.
- Optimized smart contracts using the Anchor framework, reducing gas fees by 25% and improving transaction throughput by 40%.
- Integrated Web3.js with the frontend (React/Node.js) for seamless transaction execution and tracking.

Technical Skills

Languages: Java, Python, Rust, Solidity, SQL/PL-SQL, DSA

Frontend: HTML, CSS/Tailwind, JavaScript, React.Js, Bootstrap, MUI, TypeScript, Next.Js

Tools/DBs: MongoDB, Postgres, Supabase, MySQL, Git, Web3, Blockchain

Certifications

- Ethical Hacking Essentials (EHE)
- Foundations of Cybersecurity, Play it Safe: Manage Security Risks (Google Cybersecurity Professional)
- ITN, Cybersecurity (CISCO)
- DBMS: Oracle, TCS MasterCraft
- ISEA: Safe Digital Gaming, Cyber Hygiene Practitioner

Achievements

- Gold Medal – Amity University (Academic Excellence)
- Vice President – Unnati Social Service Club

- Gold Medal – CMS (Academic Excellence)
- 1st Place – AIMT Research Presentation (2023)
